

TIMETABLE

AND PLAN OF MOBILITY

The application includes various mobility for both students and teachers / staff and Ata staff. The Plan involves all sectors of personnel, since it is believed that training in international mobility, in addition to be profitable for professional and personal development thanks to the development of specific linguistic skills and intercultural, it is also a motivating and rewarding factor. The target profiles are Headmaster, Director of Services General and Administrative, Technical and Administrative Assistants and Teachers, with particular regard to those teachers who they hold Middle Management functions and students, especially students with financial problems.

Almost all activities have been selected on the School Education Gateway platform

(<https://www.schooleducationgateway.eu/it/pub/index>) making choices also based on the countries of destination (for example, training related to staff and student well-being, and school governance has relapsed mainly on the countries of Northern Europe, considered to be at the forefront of these aspects, while the choice of training related to the special needs of students, education for diversity, mainly fell on countries closer to our own cultural background - France, Spain, Portugal). The students' mobility will be carried out mainly at schools where we are in contact and which at the moment have given the availability to organize workshops and courses. If at the time of the mobility there is no longer availability, we will contact centres that deal with the training of learners on various topics:

- Fight against bullying,
- Coding
- Theme of Inclusion
- Environmental problems as highlighted in the 2030 Agenda
- The sustainable city
- Citizenship

a.s. 2021-2022

November 2021

Project start/ meeting

Creation of the Erasmus+ corner at school and on the web-site of the school.

Internal e-Twinning training and e-Twinning registration for all participants

Call for internal language training:

- 20 hour basic level English course with native speaker in attendance (involved 40 students in two groups of 20 students each)
- 10 hour advanced level English course with native speaker in attendance (involved 10 Staff+D.S.)
- 20 hour advanced level French/Spanish course with native speaker in attendance (involved 10 Staff+ D.S.)

December 2021
